

How to redeem Cloud credits

Last updated: 18 February 2026

Redeem Cloud Credits

Step 1: Visit trygcp.dev link

Claim your credit using the link below:

<https://trygcp.dev/claim/deveco-gdg-12223e913c9>

Step 2: Sign in with gmail

Make sure to sign with the same Google account as used in Google Cloud Console.

Step 3: Access your credits

Upon arrival at the site, you will be prompted to click a button to access your credits.

Your credit will allow you to use Google Cloud, Gemini API and Firebase. Many products even have a [Free Tier](#).
Once redeemed, it will be valid for **180 days** or until the balance is depleted if you use non-free services.

CLICK HERE TO ACCESS YOUR CREDITS

Step 4: Accept T&C

On the next page, you will find editable fields for your **First** and **Last Name**. Please verify that these details are accurate and that you are signed into the correct account. To move forward, review the Terms of Service and then click the blue "**Accept and Continue**" button.

Terms and conditions

The following [Terms of Service](#)  apply to the credit you received for Google Cloud products.

ACCEPT AND CONTINUE

* Indicates required

Create a new project in Google Cloud Console

Step 1: Click 'Select a project'

Go to <https://console.cloud.google.com/> and sign in with your Gmail account. If you're new, you may be prompted to sign up and activate the Google Cloud Free Program. Once you successfully log in, locate the dropdown menu labeled 'Select a project' or 'My first project' next to the Google Cloud logo and click on it.

Step 2: Click 'New Project'

Locate and click the blue '**New Project**' link on the right side of the screen.

Step 3: Enter project information

Enter a name for your project and keep 'No organization' selected under the parent resource. If a prompt appears asking for a billing account, select 'Google Cloud Platform Trial Billing Account' from the dropdown menu, then click the blue 'Create' button.

Project name * ?

Project ID: It cannot be changed later. [Edit](#)

Parent resource * Browse

 No organization

Select the organization or folder where this resource will be created

[Create](#) [Cancel](#)

Step 4: Select the project

When the pop-up on the right-hand side appears, click 'Select Project.' Alternatively, you can follow a similar path to Step 1: click the dropdown menu next to the Google Cloud logo, but this time, choose your newly created project.

Step 5: Billing setup

Open the Navigation menu (top-left) and click on 'Billing' under the Products section.

Step 6: Link a billing account

A notification will appear stating that this project has no billing account; this is expected. To link one, click 'Link a billing account.'

Billing

This project has no billing account

This project is not linked to a billing account

[Link a billing account](#)

[Manage billing accounts](#)

Step 7: Select the correct billing account

Select 'Google Cloud Platform Trial Billing Account' from the dropdown menu. Then, click the blue 'Set account' button below to confirm.

A white rounded rectangular dialog box with a blue border is centered on a solid blue background. Inside the dialog, at the top, is a dropdown menu labeled "Billing account *" with the text "Google Cloud Platform Trial Billing Account" and a small downward arrow and question mark icon to its right. Below the dropdown is the text "Any charges for this project will be billed to the account you select here." At the bottom right of the dialog are two buttons: a gray "CANCEL" button and a blue "SET ACCOUNT" button. A blue mouse cursor arrow is pointing at the "SET ACCOUNT" button.

Billing account *

Google Cloud Platform Trial Billing Account

Any charges for this project will be billed to the account you select here.

CANCEL SET ACCOUNT

Step 8: Check the credits

On the left-hand side of the Billing page, click on 'Credits.' Here, you can view your newly activated credits and track important details such as the start date, end date, and the percentage remaining.

The screenshot shows the Google Cloud Billing interface. On the left, the 'Billing' menu is expanded, showing options like 'Billing account', 'Overview', 'Reports', and 'Cost table'. The 'Credits' section is selected. The main content area displays 'ALL CREDITS' and a table of credit details. The table has columns for 'Credit name', 'Status', 'Percent remaining', 'Remaining value', 'Original value', and 'Type'. A single credit is listed: 'Frictionless access to Google Cloud' with a status of 'Available', 100% remaining, and a value of \$5.00.

Credit name	Status	Percent remaining	Remaining value	Original value	Type
Frictionless access to Google Cloud	Available	100%	\$5.00	\$5.00	One-time

Step 9: Optional - Update billing account name

If you have multiple Cloud Billing accounts with similar names, you might want to modify the name of each billing account to help you distinguish between accounts. Don't include sensitive information such as personally identifiable information (PII) or security data in your billing account name.

1. In the Google Cloud console, go to the [Account management page](#).
2. At the prompt, choose the Cloud Billing account that you want to update.
3. At the top of the page, click **Rename billing account**.
4. Enter a new name for the Cloud Billing account.
5. Click Rename to save your changes.

Troubleshooting

Common issues when setting up the GCP project

Project ID Already Taken

The Project ID must be **globally unique**. If creation fails, your ID is reserved by another user. Try adding a random number or a unique suffix to the ID field.

Cannot Enable Services

You must ensure the Billing Account is **explicitly linked** to your **new project**. Resources cannot be created or launched until a billing account is associated, even with free credits.

Correct billing account

If the **user ALREADY has a existing billing account** make sure they use the correct one. It must be: “**Google Cloud Platform Trial Billing**”.

Issues when attempting to redeem credits

Users may be confused about where the credits can be found. Direct them to the **Credits** tab on the console page.

The screenshot shows the Google Cloud Billing Overview page. The left-hand navigation menu includes links for Overview, Reports, Cost table, Cost breakdown, Budgets & alerts, Billing export, Cost optimization, FinOps hub, Committed use discounts, CUD analysis, Pricing, Cost estimation, Credits, Billing management, and Account management. A blue arrow points to the 'Credits' link. The main content area displays the 'BILLING ACCOUNT OVERVIEW' with a summary of costs and credits used, a FinOps hub section, and a 'Create a budget alert' section.

The screenshot shows the Google Cloud Billing Credits page. The left-hand navigation menu is the same as the Overview page, with a blue arrow pointing to the 'Credits' link. The main content area displays the 'ALL CREDITS' section, which includes a table of credits. A blue arrow points to the 'Credits' link in the navigation menu. A text box at the bottom right states 'You will find your credits here'.

Credit name	Status	Percent remaining	Remaining value	Original value	Type	Credit ID	Scope
Frictionless access to Google Cloud	Available	100%	\$5.00	\$5.00	One-time	N0LE0275...	Any service on this billing account.

Issues when attempting to redeem credits

If the user ALREADY has a existing billing account make sure they use the correct one.

1. Click on the 3 Dot menu on the project, and select “Change Billing.”
2. From the drop down select “Google Cloud Platform Trial Billing”.
